

ART EXHIBITION

Craig Lee Johnson – Photographer/Artist

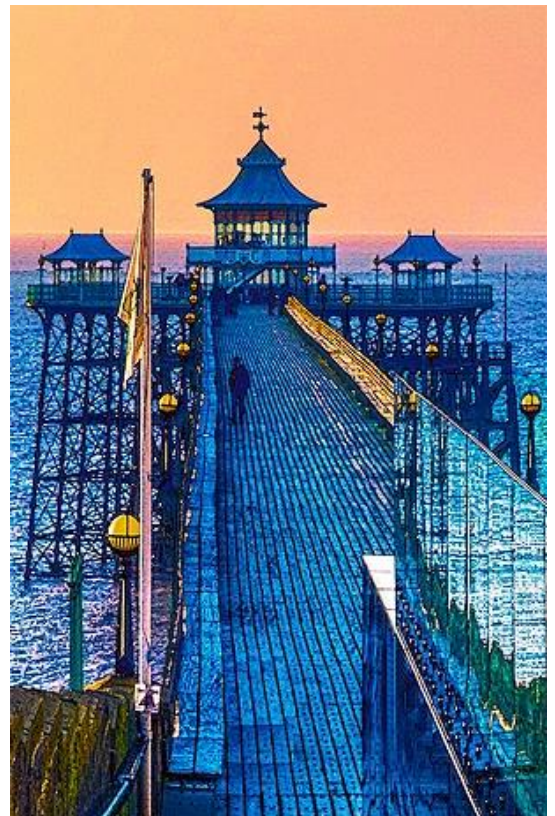

Biography

I have always doodled and sketched. I studied Art and Graphic Design and went on to graduate in Product Design.

The next ten years however took me on another path: living and travelling abroad in Asia and New Zealand, teaching.

Travelling by train, cycle touring and trail running, for me, is all about traversing new and inspiring landscapes. I desire to share these moments with others as I saw them. Photography and creating artworks allow me to do this and delight. Now sales of my art help support my being a stay-at-home dad.

I use a mixed media approach, often starting from

my photos to draw out how these places felt to me through impressionist paintings in acrylic or graphic images using Lightroom and Photoshop.
